Static Cling Window Stickers & Decals

Static Cling Window Decals & Stickers are one of our clients' favorite decal selections. Often called **Removable Decals** which is another type of decal that uses a removable adhesive, **Window Static Cling Decals** adhere with the use of static electricity combined with a slightly sticky **non-adhesive** surface that makes static cling film unique.

Why do our clients **love** these decals? No scraping, picking or difficulty removing these decals...and **no glue residue**. And our **Static Cling Decals** are made using .008" thickness cling material, not to be confused with cheaper and thinner versions some of our competitors use.

Note Regarding Clear Decals

Under **most circumstance** any colors must be **backed with white** to prevent the colors from appearing "washed out." The white can back-up **just the art** or the entire background. In cases where the graphics or copy is **thin or small**, a **"halo"** print may be required.

The Visigraph 100% Satisfaction Guarantee

We pay **careful attention** to every detail on every order we receive, and our **100% Satisfaction Guarantee** is just what it says...you'll love our decals or we'll re-do them. It doesn't happen often, but hey, we're human too! Rest assured, though, that if it does, we'll fix'em free of charge and with **no hassle**.

Calculating the Size of your Decal

Length x Width = Number of Square Inches. For example, if you have a decal that is 3" x 5" simply multiply **3 x 5 = 15 square inches.**
