Sandblasted and Carved Wood Signs in HDU, Urethane, Extira, Cedar, and Redwood

Sandblasted and Carved Custom Wood Signs are the Grand Daddy of all signs. First there were cavemen, then cave stores, then to beat the competition the more innovative cavemen installed **carved signs or wooden letters** on their cave stores.

While we're not precisely sure we can verify this story, we do know that **these signs have been around for a long time** and are still one of the classiest signs available.

Now though, we are able to offer, in addition to Redwood and Cedar, **high-density urethane (HDU) signs** that look and feel like wood, but hold paint better, are more dimensionally stable, and are **much lower maintenance** than wood.

We can either CNC carve or route your sign or sandblast it ...we can even create a wood grain look in the HDU!

Product Uses and Applications

Sandblasted and Carved Signs can be used for:

- **Business Exterior or Interior Signs**
- Mall Signage
- **Professional Office Signs**
- Government Building Signs
- **Law Offices**
- Corporate Headquarters
- **Monument Signs**
- Development Signs
- **Resort Signs**
- Golf Course Signs
- **...and more!**

Sandblasted and Carved Signs Warranty

Sandblasted and Carved Signs come with a 5-year warranty on all finishes and materials. These signs will be free from physical defects in materials or workmanship under normal use at the original installation site.

Large Quantity Quotations

If you need **large** quantities of signs, **call us** at 509-483-8000, **email** our sales department directly at sales@visigraph.com, or **fill out** our **Get A Quote** form.

The Visigraph 100% Satisfaction Guarantee

We pay **careful attention** to every detail on every order we receive, and our **100% Satisfaction Guarantee** is just what it says...you'll love our wood lawn signs or we'll re-do them. It doesn't happen often, but hey, we're human too! Rest assured, though, that if it does, we'll fix'em free of charge and with **no hassle**.

Calculating the Size of your Signage

Length x Width = Number of Square Inches. For example, if you have a decal that is 3" x 5" simply multiply **3 x 5 = 15 square inches**.
